

Antonin Gosset BA MA

IT Manager & Consultant Support

Antonin Gosset joined Space Syntax as an intern and became IT manager and Consultant Support in November 2007.

Since joining Space Syntax, Antonin has been involved in 3D modeling, GIS (Geographical Information Systems), statistical analysis for projects and RnD, report preparation, cartography and graphic design.

Antonin has contributed to the development of the methodology for I-VALUL, Urban Buzz project, and design of Elephant & Castle Southern Junction Crossing 3D model. In addition, he is responsible for IT management and training at Space Syntax.

Before joining Space Syntax, Antonin did his master's thesis on doing a research study focusing on the suburban residential enclaves around Paris as an intern in IAURIF in 2006 (Institute for urban planning of the Paris Region).

Antonin is interested in political issues, photography and enjoys drawing humour illustrations.
